

Hello,

Thank you for considering me for the position. If you would have me in this role, I would learn, grow, and foster a relationship with the rest of the staff to reach team goals. I've been in the information technology field for years and take professional ownership of customer issues. I hope to bring an aggregate of enthusiastic professionalism to the table along with the best my skills have to offer.

I appreciate your time considering my candidacy for the position. Please allow yourself and all affected parties to review my qualifications. I look forward to discussing all the details further..

Thank you,

Brad
